Airustrial Center, Bldg. 5 • P.O. Box 47827 • Olympia, Washington 98504-7827

March 7, 1997

Dear Interested person:

The Department of Health has recently issued a report entitled: 100-D Island Radiological Survey. This report summarizes a 1995 radiological survey of 100-D Island by staff from the Departments of Health and Ecology, Pacific Northwest National Laboratory and the U.S. Department of Energy. This investigation was initiated at the request of the Department of Ecology to evaluate the potential for public exposure, substantiate questionable historical radiological data, and determine the distribution of ^{60}Co particles to evaluate the need for radiological posting.

The Department of Health is interested in hearing your comments or questions. All written inquiries should be directed to:

Debra McBaugh, Head
Environmental Radiation Section
Washington Department of Health
P.O. Box 47827
Olympia, WA 98504

You may also call Dick Jaquish or Allan Danielson at (509) 377-3870.

Sincerely,

Debra McBaugh, Head
Environmental Radiation Section
Division of Radiation Protection
